November 2015

### **Key Messages**

"The poor no longer wait, they seek to be protagonists, they organize, study, work, demand and, above all, practice that special solidarity that exists among those who suffer, among the poor..."

Pope Francis

- In the United States, 1 in 6 people and 1 in 5 children live in poverty. This is an affront to our dignity as a people of God. CCHD, the anti-poverty program of the Catholic bishops in the United States, breaks this cycle of desperation by empowering communities to **practice** solidarity.
- This is a time of record poverty and income inequality. Statistics and structures can
  seem abstract and be easily dismissed in polite conversation. But barriers to fairness and
  thriving are real: in the brokenness of Ferguson, environmental injustices, in the separation
  of immigrant families, in persistent unemployment The way out of this cycle of desperation is
  by working together. The answer to poverty in America today will not be affluence, but
  solidarity. CCHD builds solidarity.
- CCHD supported groups open up paths out of poverty. When you give to CCHD, you support the **passion**, **talent and imagination** present in our communities and parishes. You empower others with the chance to participate in society, confidence and security.
- Following the mandate of Jesus, CCHD creates opportunities for communion and solidarity that help us all, especially the most vulnerable. Through CCHD we foster the common good and work to build a society where **no one is left behind**.
