

# Synod of the Amazon...

## What Can We Learn to Rekindle the Fire of the Catholic Church?

Presented by Bishop Robert W. McElroy

Bishop McElroy was one of two US bishops invited to attend the Synod of the Amazon! The central question of this Synod ... How can the Church of the Amazon more effectively proclaim the salvation of Jesus Christ so all might find in the Church a true sacrament of God's love and the pursuit of justice for the poor and for the Earth? Responses include a Church characterized by evangelical zeal, active participation in the Church and world by all believers seeking values of peace, mercy and communion and the conviction that the whole people of God must participate in the discernment process that guides the Church in its sacred mission to proclaim the gospel of Jesus Christ. How does this challenge us?
