VOLUNTEER INTERVIEW

| 1. | Have you performed this type of work before? |
|----|---|
| 2. | What is your experience? |
| 3. | Have you operated the machinery or equipment before? |
| 4. | Any physical restrictions or health concerns for the position? |
| 5. | * Is the volunteer 21 years of age or older? If not, what is their age? |
| 6. | Give volunteer a copy of the Volunteers and the Catholic Church brochure. |
| | *Minors should never be allowed to operate inherently dangerous power equipment such as power saws, drills or similar equipment. Individuals should be 18 years of age to operate any power riding equipment. See attached list of age appropriate tasks. |

| TYPES OF WORK ALLOWED BY AGE GROUP | | | | | |
|------------------------------------|--|---|---|---|--|
| AGES | ACCEPTABLE WORK | NON-ACCEPTABLE WORK | ACCEPTABLE TOOLS TO USE | PROTECTION EQUIPMENT REQUIRED | |
| 10-14 | Simple cleaning operations such as dusting, mopping, and sweeping. Light yard work such as raking, picking up branches/leaves. Serving food at designated food distribution sites. | No use of ladders or scaffolding. No handling of toxic materials. No use of power saws or other power-driven woodworking machines. No structural demolition. No operation of chain saws. No operation of motor vehicles or power-driven hoisting apparatus. No excavation operations. No roofing operations or work on or related to roofs. | Ordinary cleaning and yard work tools such as brooms, shovels, rakes, wheelbarrows, mops, rags and buckets. | Long shirt and pants, shoes or work boots, work gloves (as appropriate to nature of work). Also, any Personal Protection Equipment (PPE) required per safety regulations for proper use of specific tools or materials. | |
| 15-17 | As above, plus simple construction jobs such as putting up drywall, laying floors, tiles, carpets. | No use of ladders or scaffolding. No handling of toxic materials. No use of power saws or other power-driven woodworking machines. No structural demolition. No operation of chain saws. No operation of motor vehicles or power-driven hoisting apparatus. No excavation operations. No roofing operations or work on or related to roofs. | As above, plus hammers, pry bars, crowbars, floor scrapers. | As above | |
| 18-20 | As above, including more advanced demolition and construction projects. | No use of scaffolding. No handling of toxic materials. No use of power saws or other power-driven woodworking machines unless properly trained. No structural demolition. No roofing operations or work on or related to roofs. | As above, plus drills and simple power tools. | As above | |
| 21 and older (Adult) | All work jobs typically expected of a mission worker and appropriate to skillset of volunteer. | No roofing operations or work on or related to roofs. | Any tools as appropriate to nature of jobs. | As above | |

CLAIM FILING PROCEDURE

- Report school related injuries to the school within 72 hours.
- 2 Have school complete PART A. (Parents may fill out PART A if injury is not school related.)
- 3 Parent or guardian complete PART B.
- **(1)** IMPORTANT: Both parts must be completed in full or claim will not be processed.
- Mail form to our office with all itemized bills within 90 days of the first date of treatment.
- (3) At the same time, please file a claim with your other family health and/or accident carrier. This can include employee plans, union plans, CHAMPUS (military plans), service contracts, self-insured benefit plan, or health maintenance organizations (HMO's).
- When you receive a notice of payment, a notice of denial, or a letter stating you have met your deductible from your other health and/or accident carrier, please forward this information to our office.
- **13** If you have any questions, please call our office at 949-348-0656.

COMMONLY ASKED QUESTIONS

Do I have to go to a specific doctor or hospital?

No, you can go to the doctor or hospital of your choice. However, if you go to a doctor or hospital that is part of the **Beech Street** preferred provider network, you may have your out-of-pocket expenses significantly reduced. To find a participating doctor or hospital in your area, call 800-877-1666, 24-hours a day, 7-days a week or log on to www.beechstreet.com

Do I need to attach a claim form with all bills?

No, only one claim form is required per injury.

Do you offer family coverage?

Yes. Please contact the office for information.

Arranged & Administered By:

myers • stevens & toohey & co., inc.

26101 marguerite parkway mission viejo, california 92692-3203 (949) 348-0656 fax (949) 348-2630 Underwritten by: ACE American Insurance Company

For residents of California: Any person who knowingly presents false or fraudulent claim for the payment of a loss is guilty of a crime and may be subject to fines and confinement in state prison.

POST ACTIVITY REVIEW FORM

With all volunteers, you should consider how you would answer the following questions to determine whether or not they should be used again in the same volunteer capacity or whether they'd be suited better for an alternate form of volunteer duties. This should be part of your routine review of every volunteer or volunteer activity.

| 1. | Did the volunteer follow instructions? |
|----|--|
| 2. | Were the volunteer's skills suited to the ministry for which he/she signed up? |
| 3. | Did the volunteer drive a motor vehicle as part of their ministry? |
| | a. If yes, did they have adequate liability insurance coverage of \$100,000/\$300,000 on their vehicle? |
| | b. Did they successfully pass the Motor Vehicle Record Check (MVR)? |
| | c. Did they restrict their driving to ministry activities only? |
| 4. | Were there any volunteers that were not appropriate for the activity? If so, should keep a written record of this in parish files. |

VENDOR INSURANCE REQUIREMENTS

APPENDIX.

ALL VENDORS¹ THAT ARE TO WORK ON OR PERFORM ON DIOCESAN PROPERTY MUST MEET DIOCESAN INSURANCE REQUIREMENTS AND SUBMIT PROOF OF THEIR INSURANCE PRIOR TO ENTERING INTO THE START DATE.

Proper food handling and storage - reducing the risk of contamination

Appendix M

Due to the illnesses and incidents which have occurred across the United States, there has been more media coverage and information concerning food poisoning. Recently, this has included newspaper articles and television news programs. All have reviewed illnesses which can and have occurred. What is your risk of exposure, and what safeguards should you practice to reduce the potential of a foodborne illness?

Handle food safely

Meat and poultry processors have begun providing additional labeling on packages to better educate and protect consumers. Government agencies including the USDA have been underway in establishing stricter testing and inspection requirements for food processors, as well as programs to assess food safety along the entire food distribution chain. It is important to understand that an improved inspection system can't replace good sanitation and safe food handling by those food handlers responsible for the final storing, preparing, and serving of food. This would include restaurants, schools, parishes, and consumer households. As many schools and parishes routinely prepare and serve food, the following information is being provided to review safe storing, preparation, and serving of food.

| review safe storing, preparation, and serving of food. |
|--|
| Refrigerators should be kept at 40 degrees or cooler. Freezers should be kept at 0 degrees. Raw meat and poultry should be refrigerated as soon as possible after purchasing or receiving. At the grocery store or deli, keep raw meats and poultry separated from other perishables. Never thaw frozen meat and poultry on the kitchen counter. Thaw them in the refrigerator. If in a hurry, thaw in a bag under cold running water. If a microwave is used for thawing, the food should be immediately cooked. Always refrigerate when marinating food. |
| ☐ Canned goods should be stored in a cool, dry area and should be free of cracks, dents, and bulging. |
| □ Cooked or prepared food requiring refrigeration should never be left unrefrigerated for more than two hours. In a warm environment, food should sit out no longer than one hour. Refrigerate or freeze cooked/prepared foods in shallow containers rather than deep containers. |
| ☐ Refrigeration and freezing does not kill bacteria on food which sat out too long and has started to spoil. When in doubt, throw it out. |
| Two of the more common types of feed noisening are caused from colmonelle and E coli |

Two of the more common types of food poisoning are caused from salmonella and E.coli bacteria. At least 40,000 salmonella infections are reported annually. Experts estimate 500,000 to 4 million infections actually occur.

Any raw food of animal origin (i.e. meat, poultry, eggs, raw milk, fish, and shellfish) may carry salmonella. Food can be contaminated with E.coli when a food handler or cook does not follow good sanitary procedures. Critical to this is washing hands after using a bathroom.

Don't let bacteria spread or grow

| effectively destroy bacteria during the cooking process. The following steps will greatly reduce the likelihood of a food related illness. |
|--|
| Inspect the food to see if there are any signs of contamination or spoilage. Fish, poultry, ruits, and vegetables should be thoroughly washed/rinsed. |
| Always wash your hands with soap prior to handling and preparing food. You should also ewash your hands prior to preparing another type of food or when using a new knife/utensil. |
| Raw meats, fish, and poultry should be cut on an acrylic cutting board, not wood. Use a wood cutting board for fruits and vegetables only. |
| Never serve food on a plate or platter which raw meat, fish, or poultry was cut or prepared on. |
| Never let raw meat, fish, and poultry or their juices come in contact with other foods. |
| ☐ If the work area was cleaned with a dishcloth, always immediately switch to a clean one or use lisposable paper towels. |
| After cleaning utensils and work areas, an additional measure is to sanitize. This can be done using 2 to 3 teaspoons of household bleach in one quart of water, then thoroughly rinsing with cold water. |
| Always cook food thoroughly. Only thorough cooking destroys bacteria. Thermometers are ecommended to determine if the internal temperature of the food you are cooking has reached a afe temperature. Internal temperatures should reach 160 degrees. If the food includes poultry, he temperature should reach 185 degrees. |
| If serving food for an extended period, hot foods should be kept above 140 degrees and cold foods below 40 degrees. |

The key to preventing an exposure is to not allow any contamination while preparing food and to

More information

Additional information is available on the Internet from the USDA Food Safety and Inspection Service Home Page at http://www.usda.gov/fsis, or by calling the USDA Meat and Poultry Hotline at 1-800-535-4555. Another source is your local government Health Department.
